Date													

**Directions:**

- For **BEHAVIOR PINPOINT**: Clearly state when the event starts and ends.
- Choose an **OBSERVATION PERIOD** most appropriate to the behavior i.e.,
  - a short directed lesson for frequent behaviors (such as calling out)
  - an hour or full morning for less for less frequent behaviors (like fighting)
- Use the same observation period each day.
- Get a **BASELINE** (usually recommended): A minimum of three to five days of charting should be conducted **before** any intervention is implemented.
- To **RECORD**: Work upward from the bottom of the column each day, marking or circling one number each time the target behavior occurs during the observation period.
- To **GRAPH PROGRESS**: Use a line to connect the highest marked number across the columns.
